NOTES:

1. Dimensions are in inches.
2. Metric equivalents are given for general information only.
3. Metric equivalents are in parentheses.
4. See table I for the clamp size available with each accessory shell size. See table II for wire bundle accommodation range for each clamp size. Wire bundle accommodation range is not a clamp measurement, but indicates the actual range the clamp and sealing member must accommodate. The grommet sealing dimension shall meet the maximum wire bundle accommodation range dimension of the designated clamp.
5. Loosely assembled is defined as the clamp tightened to the MIL-C-85049/76 connector accessory body two full thread lengths.
